

## Budget Advocacy Continues as Fiscal Year Winds Down

The Arc of New Jersey's Executive Director Tom Baffuto was honored to meet Assemblywoman Haider last month at a site visit hosted by The Arc of Bergen & Passaic Counties. The Assemblywoman got to tour the wonderful programs offered by the Chapter and to meet individuals who benefit from services, as well as the staff who support them. Also last month, The Arc of New Jersey continued to meet with members of the Senate and Assembly Budget Committees on our priority funding areas for the Fiscal Year 2023 Budget. These include maintaining appropriations proposed by the Governor for DSP wages and day program rate increases, among other things, and adding \$9.5 million to increase the amount of respite hours for children with IDD served through the Children's System of Care within the Department of Children and Families. ## Chapter Spotlight: The Arc of Hunterdon Says Goodbye to Long-Time Executive Director After Years of Service

Jeff Mattison, Executive Director at The Arc of Hunterdon, will retire from the organization at the end of the month after many years of service to people with intellectual and developmental disabilities and their families. Jeff is a committed advocate for those we represent and his work, in collaboration with his team, has advanced and expanded services and supports for those who rely on them in Hunterdon County. We take this opportunity to learn more about Jeff's journey as he prepares for the future.

### 1. How many years have you worked at The Arc of Hunterdon County and what originally attracted you to this line of work?

My time as Executive Director at The Arc of Hunterdon County began in 2007. I was introduced to The Arc in 1995 when my immediate next-door neighbor, (who just happened to be employed by The Arc's accounting firm), called me to say that a fellow by the name of Tom McKenna was looking to start a Business Advisory Council at an agency in Hunterdon County that supported people with disabilities. The Council was designed to explore employment, transportation, and real estate opportunities for the agency's clients. After meeting with Tom and serving on the committee for just a short time, I was invited to join the Board of Directors in 1997 and served as Board President from 2005 through 2007. It was then that my predecessor retired and the position of Executive Director was offered to me by The Arc of Hunterdon Board. What really attracted me to the agency and its work, however, was an annual picnic event where I was introduced to the amazing individuals supported by The Arc. Their infectious smiles and the joy that they expressed over seemingly small things drew me to a place where I knew I needed to be. [To continue reading, click here.](#)

## Tell Congress: Support the SSI Savings Penalty Elimination Act NOW!

The **Supplemental Security Income** (SSI) program provides critical support for millions of people with disabilities and their families to be able to afford necessities like food and rent. But it

has many rules that make it hard for people to save money and get out of poverty. SSI has an asset limit that has not been updated since 1989. Assets include money in bank accounts, property, and savings. Right now, people who get SSI can only have \$2,000 in assets. Married couples can only have \$3,000. These asset limits mean that people cannot save money and force people with disabilities into poverty. **TAKE ACTION:** Urge your U.S Senators to support people with disabilities and their families by cosponsoring the bipartisan SSI Savings Penalty Elimination Act ([S.4102](#)) which would raise these asset limits.
